### **GROWING OPPORTUNITIES**

– Laura Kelley of Littlefield Landscapes walks through Cape Cod Child Development's outdoor playscape in Hyannis, where she's donated her time and expertise to create a low-maintenance garden filled with native and sustainable species of plants. In the background is an outdoor theater built in-kind by local contractor Michael Leary of M. L. Construction with wood donated by Botello Lumber. The playscape project, supported by a Head Start Body Start grant, is still looking for community partners willing to donate anything from hardscaping materials to plants to labor. A ribbon-cutting ceremony is planned for the fall.
